SUMMARY

Business Analyst Professional with an MS in Business Analytics & AI, and 6+ years of experience in process automation, stakeholder management, and leveraging large-scale data analytics to drive operational efficiency. Expert in workflow analysis, KPI reporting, campaign performance evaluation and translating business challenges into scalable, insight-driven solutions.

PROFESSIONAL EXPERIENCE

Graduate Research & Teaching Assistant | University of South Florida | Tampa, FL

Aug 2025 - Apr 2026

- Spearheaded design of robust data warehouse, automating end to end ETL pipelines and deploying advanced CSV data compression in Oracle SQL Developer to cut processing overhead by 45%, enabling seamless strategic financial forecasting.

Data Analyst Intern | Cantaloupe Inc. | Atlanta, GA

May 2025 - Aug 2025

- Led real-time IoT anomaly detection project (Databricks), automated stakeholder reporting, reducing manual monitoring by 40%.
- Architected centralized data dictionary using Tableau Metadata API, improving data access efficiency by 50% across Tableau users.
- Resolved ad-hoc JIRA tickets (worked on 20+) providing actionable data and visual dashboards, streamlining team workflows.
- Coordinated with data engineers to optimize data pipelines using Azure Data Factory, SQL enhancing ETL performance.

Business Analyst | Invesco Ltd. | Maharashtra, India

Mar 2022 - Jul 2024

- Led business analysis for 10+ global and domestic digital transformation projects, authoring BRDs, FRs, and PDDs to bridge the gap between stakeholders and technical teams for seamless workflow automation.
- Translated complex stakeholder requirements into 50+ user stories (using JIRA), and facilitated 9+ agile scrum ceremonies, prioritizing the product backlog to increase team velocity by 5.3%.
- Executed SQL queries and Python scripts to analyze largescale performance data & critical trends, reduced processing time by 45%.
- Led a 20+ member IT team through Oracle ERP transition for 3 acquired businesses by managing project activities including requirement gathering, solution proposal, and key project phases such as, CRP, SIT, and UAT testing.

Business Analyst | Smile Foundation | Maharashtra, India

Apr 2018 - Mar 2022

- Automated end-to-end marketing performance analysis using Python and Tableau, resulting in 15% boost in conversion rates.
- Partnered with analytics & product teams to reengineer workflows, resulting in ~10-15% improved customer acquisition.
- Built an automated Power Query and VBA pipeline across 12+ projects to unify donor data, cutting reporting cycles by 40%.
- Led global workshops to gather requirements and draft PDDs for automated risk workflows, transitioning manual compliance checks to digital controls and cutting audit prep cycles by 50%.

Marketing Associate | Aakaar Medical Technologies Pvt. Ltd. | Maharashtra, India

Jan 2017 - Apr 2018

- Pioneered real-time feedback loops and A/B testing to optimize recommendation accuracy, improved client response by 25%.
- Implemented 15+ PowerBI dashboards for real-time insights into \$15M On-hold invoices and automating distribution to 700+ stakeholders across manufacturing and supply chain, resulting in a 32% reduction in discount lost.

TECHNICAL PROJECTS

- International Logistics Process Optimization & Regulatory Impact Analysis (CPSC Filing)** | *SQL, PowerBI, Lucid chart*
Designed end-to-end workflow for international shipment processing including shipment request creation, customs documentation, export compliance validation, tracking, & final delivery processes, identified 5+ workflow bottlenecks, proposed automation opportunities, reducing compliance efforts by 30% & improving shipment processing efficiency by 20%.
- US Census Data API – Tampa Region Poverty Trend Analysis** | *Python, SQL, Tableau, Rest API, Requests, JSON*
Delivered analysis on 50,000+ Census records, analyzed 5-year economic trends for Tampa Bay region, and comparison with 8 U.S. metro regions and visualize poverty and income disparities across 10+ key indicators.
- Predicting Airline Customer Satisfaction** | *Python, Pandas, NumPy, Matplotlib, Random Forest & XGBoost ML model*
Conducted dataset selection & preprocessing, including feature selection and trained models using ML algorithms to predict customer satisfaction with model evaluation accuracy (95.32%), precision (94.2%), recall, F1-score (95.88%), and ROC-AUC metrics.

TECHNICAL SKILLS

- Programming & Framework:** Python (Pandas, NumPy), R, Advanced SQL, GraphQL, Java
- Databases:** MongoDB, MySQL, Oracle Database, PostgreSQL, Microsoft SQL Server, Databricks
- Data Intelligence Tools:** PowerBI, Tableau, Azure Data Lake, Figma, DAX, VS Code, Git, Microsoft(Power Query, VBA Macros)
- Tools and Methodologies:** GitHub, JIRA, Visio, Agile, ETL, Lucid Chart, Data Modelling, Salesforce, Zapier, Microsoft Copilot

EDUCATION

M.S. Artificial Intelligence and Business Analytics | University of South Florida, US | GPA: 3.93/4

Aug 2024 - May 2026

Core Coursework: DBMS, Business Statistics, ML, AI, Data Visualization, Big Data, Data Warehousing

Master's in Business Administration (MBA) | Universal Business School, India | GPA: 3.6/4

Aug 2015 - Jul 2017
